This drug, like many others, raises your blood pressure, which can lead to a heart attack. Talk with your doctor if you will need to be still for long periods of time like long trips, bedrest after surgery, or illness. Not moving for long periods may raise your chance of a blood clot like chest pain or pressure, coughing up blood, shortness of breath, swelling, warmth, numbness, change of color, or pain in a leg or arm, or trouble speaking or swallowing. If you have high blood sugar (diabetes), you will need to watch your blood sugar closely. High blood pressure has happened with drugs like this one. Have your blood pressure checked as you have been told by your doctor. Have your blood work and bone density checked as you have been told by your doctor. Be sure to have regular breast exams and gynecology check-ups. You will also need to do breast self-exams as

Keep out of reach of children: Store in safety container or secure area.
