TOOTH COLOR TO YELLOW-BLAY. GROWN. IF TAKEN BY CHILDREN YOUNGER THAN 8 years old, or in the unborn baby if taken during some parts of pregnancy. If this change of tooth color happens, it will not go away. Other tooth problems have also happened. Bone growth may also be affected in these people taking this drug. If you have questions, talk with the doctor. Most of the time, this drug is not for use in children younger than 8 years old. However, there may be times when these children may need to take this drug. Talk with the doctor. Change in tooth color has also happened in adults. This has gone back to normal after this drug was stopped and teeth cleaning at a dentist's office. Talk with the doctor. This drug may cause harm to the unborn baby if you take it while you are pregnant. If you are pregnant or you get pregnant while taking this drug, call your doctor right away.

Keep out of reach of children: Store in safe
