not take more than what your doctor told you to take. Taking more than you are told may raise your chance of very bad side effects. If you have high blood sugar (diabetes), you will need to watch your blood sugar closely. If you take cholestyramine or colestipol, take them at least 4 hours before or 1 hour after this drug. Avoid or limit drinking alcohol to less than 3 drinks a day. Drinking too much alcohol may raise your chance of liver disease. If you are 65 or older, use this drug with care. You could have more side effects. You may need to use birth control to prevent

nurse, pharmacist, or other health care provider.

Keep out of reach of children. Store in safety container in secure area.

Call your doctor right away if you have signs of low vitamin B-12 levels like shortness of breath, dizziness, abnormal heartbeat, muscle weakness, pale skin, tiredness, mood changes, or numbness or tingling in the arms or legs. Do not take this drug for longer than you were told by your doctor. Lupus has happened with this drug, as well as lupus that has gotten worse in people who already have it. Tell your doctor if you have lupus. Call your doctor right away if you have signs of lupus like a rash on the cheeks or other body parts, change in skin color, sunburn easy, muscle or joint pain, chest pain or shortness of breath, or swelling in the arms or legs. Very bad pancreas, liver, and white blood cell problems have happened in people who were taking this drug. Rarely, these have been fatal. Talk with the doctor if you have questions. If you are of Asian

Call your doctor right away if you have signs of low vitamin B-12 levels like shortness of breath, dizziness, abnormal heartbeat, muscle weakness, pale skin, tiredness, mood changes, or numbness or tingling in the arms or legs. Do not take this drug for longer than you were told by your doctor. Lupus has happened with this drug, as well as lupus that has gotten worse in people who already have it. Tell your doctor if you have lupus. Call your doctor right away if you have signs of lupus like a rash on the cheeks or other body parts, change in skin color, sunburn easy, muscle or joint pain, chest pain or shortness of breath, or swelling in the arms or legs. Very bad pancreas, liver, and white blood cell problems have happened in people who were taking this drug. Rarely, these have been fatal. Talk with the doctor if you have questions. If you are of Asian

Keep out of reach of children. Store in safety container or secure area.
