Dextroamphetamine and Amphetamine Extended-Release Capsules (Adderall XR)**Pronunciation**

(deks troe am FET a meen & am FET a meen)

Brand Names: US

Adderall XR.

Product Dispensed: Amphetamine-Dextroamphet ER Oral Capsule Extended Release 24 Hour 30 MG Warning

• This drug has a risk of abuse and misuse. This drug may also be habit-forming if taken for a long time. Do not take for longer than you have been told by your doctor. Use only as you were told. Tell your doctor if you have ever abused or been addicted to any drugs or alcohol. Misuse of this drug may cause heart-related side effects or even sudden death.

What is this drug used for?

- It is used to treat attention deficit problems with hyperactivity.
- It may be given to you for other reasons. Talk with the doctor.

What do I need to tell my doctor BEFORE I take this drug?

- If you are allergic to this drug; any part of this drug; or any other drugs, foods, or substances. Tell your doctor about the allergy and what signs you had.
- If you or a family member have any of these health problems: Blood vessel disease, high blood pressure, heart structure problems or other heart problems, or Tourette's syndrome or tics.
- If you have any of these health problems: Glaucoma, agitation, anxiety, or overactive thyroid.
- If you have ever had any of these health problems: Drug abuse or stroke.
- If you have kidney disease.
- If you are taking any of these drugs: Acetazolamide or sodium bicarbonate.
- If you have taken certain drugs for depression or Parkinson's disease in the last 14 days. This includes isocarboxazid, phenelzine, tranylcypromine, selegiline, or rasagiline. Very high blood pressure may happen.
- If you are taking any of these drugs: Linezolid or methylene blue.
