life-threatening. Talk with the doctor. Some people may have a higher chance of eye problems with this drug. Your doctor may want you to have an eye exam to see if you have a higher chance of these eye problems. Call your doctor right away if you have eye pain, change in eyesight, or swelling or redness in or around the eye. Low blood sodium levels may happen with this drug. In very bad cases, this can be deadly. Talk with the doctor. High cholesterol has happened with this drug. If you have questions, talk with the doctor. This drug may affect certain lab tests. Tell all of your health care providers that you are taking this drug. You may see something that looks like the tablet in your stool. This is normal and not a cause for concern. If you have questions, talk with your doctor. If you are 65 or older, use this drug with care. You could have more side effects. Tell your doctor if you are pregnant, plan on getting

Keep out of reach of children: Store in safety container
